

LW Lift & Tilt system

We've cut weight, not corners

New and improved lift & tilt system for power wheelchairs.

Lower weight and higher durability.

Smooth movement at a consistent speed from start to end, with REAC actuators.

Improved strength with solid, robust components.

Easy integration and installation for OEM, thanks to placement of fixation points.

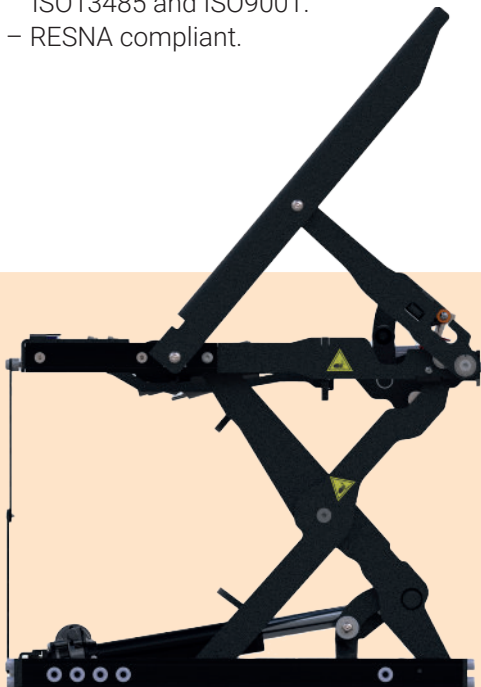

Faster time to market, thanks to in-stock samples.

Fulfilling regulatory requirements:

- Certified according to ISO13485 and ISO9001.
- RESNA compliant.

**11 %
lighter**
than standard
lift & tilt
